

## TECHNOLOGY DIRECTOR

A Technology Director is required to lead, develop, manage, organize, and administer NIST's IT Department. NIST is a leading IB World School that recognizes the importance of technology in the education of its students. The person required needs to be a passionate leader who is able to work effectively with both technical and professional staff, a team player with a clear vision, the ability to foster current programmes as well as develop new initiatives.

NIST has developed a one to one tablet programme throughout the Upper Secondary School, (Years 10-13), as well as class sets of tablets in carts in the Middle Years Programme and Elementary School. The infrastructure in the school is outstanding and major investment has been made in the Network infrastructure including a school wide wireless network. The school has a portal which is used consistently by parents, staff and students and the Technology Director's role includes developing the effectiveness of information storage, access and retrieval through the portal.

### Qualifications:

- Broad experience working in schools;
- A university graduate with teaching qualifications;
- Experience in managing a technology team;
- Experience in managing an individual computer programme an advantage.
