

MID-YEAR WITHDRAWAL PROCEDURE

Though we hope that all students have the opportunity to complete their education at NIST, in some cases families must unfortunately leave our community prior to the end of a school year. In order to help us plan our enrollment and maintain a rich, diverse learning environment, we ask for early notification of your departure. In all such cases, parents can trust that their decision will be kept in full confidentiality, particularly if the plans are not confirmed or if their children haven't been informed.

The following flowchart provides guidance in how to inform our Admissions Department of a confirmed or unconfirmed withdrawal.

Please follow this link for further information regarding moving or repatriation.
